Decr. 19. 1892.

Dear Sir,

I hoped to be able to in-
form you of the recovery
of Dr. Guleziker's egg, but
unfortunately, it is
not to be found. I
thought, that you would
break the news to Dr.
G., how it came to
pass, that the egg did
not reach here, but, I

find, that he is under
the impression, that
I received it & that I am
keeping it back! I am
now so hard pushed
about it, that I must
inform him of the
loss of his MS. If I had
known, that it is so
valuable, and that he
kept no copy, I would
have ventured to ask
him, to lend it to me,
and I regret that I have
done so. I became thus,

indirectly, the cause of the loss of
his M^y, which I certainly, would
have taken good care to return,
if it had reached me! I shall
call to-day personally at the f. p. o.
and should I have good news, I
shall inform you without
delay. I am, dear Sir,

Yours very faithfully

Henry Seely
